SURECOLOR™ SC-T3130/T3130N/T3430/T5130/T5430

**FAST AND ACCURATE,
 DOWN TO THE FINEST DETAILS.**

Great performance packed into a compact size, the Epson T-series printers are engineered to enhance work processes. With their ability to print accurate line placements, they are the ideal printing solution for blueprints, line drawings, graphics, and posters. With the built-in wireless connectivity, print jobs can be sent effortlessly from smart devices. The T-series is built to ensure fast printing speeds while delivering accuracy in every print. Share your vision and ideas clearly in your prints because the details matter.

- Up to 36" Wide¹
- Wi-Fi
- Wi-Fi Direct
- Epson Genuine Inks
- Water Resistant
- PC Free USB Memory²

IT'S IN THE DETAILS.

With Epson UltraChrome™ ink, the SureColor T-series printers redefine consistent, quality printing.

Compact, User-Friendly Design
 Small footprint with ergonomic design and convenient features bring greater efficiency and smoother workflow.

Trusted Productivity
 Print from anywhere in the office with the built-in wireless connectivity. Advanced PrecisionCore™ printhead ensures superior reliability.

Outstanding Speed & Quality
 Print A1 in just 22 seconds³. The all-pigment UltraChrome XD2 ink ensures durable printouts.

¹Up to 36" for SC-T5130/T5430 and up to 24" for SC-T3130/T3130N/T3430. ²Supported only on SC-T3430 and T5430. ³Print speed is based on the SC-T5430.

Introducing the new Epson SureColor T-series printers that are able to meet a variety of printing needs with an exacting eye on details. With all core technologies developed by Epson, such as the PrecisionCore printheads and the UltraChrome XD2 ink, expect reliable performance and exceptional quality that works perfectly with your business.

Compact, User-Friendly Design

Small Footprint

Sleek, minimally designed, the T-series is of a comfortable size that fits into tight work spaces effortlessly. At just 970 x 505 x 230mm without the stand, the SC-T3130N has one of the smallest footprint in its class.

Ideal For Corners

As the printers are built for a full front operation, they can be placed ideally in any corner of the office, without taking up too much space.

User Convenience In Mind

Designed with the user in mind, the printer will print and cut printouts without dropping it from the printer, until it is ready to be collected.

Ergonomically Design

Designed with the user in mind, the T-series printers' smart design can cater to users of different heights to help make it comfortable for them to load the media as well as to operate the printers.

Auto Switch Function*

As the T-series printers takes into account smaller sized offices, it is developed to allow loading of a range of paper sizes. The Auto Switch Function enables a seamless switch between roll paper and cut sheet paper, reducing the need for a second printer for additional A3 or A4 printing.

*Supported only on SC-T3130/T3130N/T5130

Trusted Productivity

Wireless Connectivity

The T-series is integrated with Wi-Fi and Wi-Fi Direct, making it convenient to print right from smart devices from anywhere in the office. The Wi-Fi Direct function acts as an access point, allowing devices to connect directly to the printer without a router. Additionally, the T-series printers come equipped to allow direct wireless printing from any Apple devices through Apple AirPrint, without the need for any additional drivers.

LARGE FORMAT PRINTERS

SURECOLOR™ SC-T3130/T3130N/T3430/T5130/T5430

Control At Your Fingertips

A 4.3 inch touch panel on the T-series gives you the convenience of an easy setup and a PC-less operation that just makes things extra efficient.

Preview Before Printing

Save time and money when you preview your documents before printing, preventing accidental misprints that could otherwise lead to wastage.

Seamless Scan To Print

Scan and enlarge your printouts in just four easy steps without needing to connect to a computer. Using compatible Epson scanners*, you can seamlessly scan and print directly from the T-series printers.

*Recommended scanners: WorkForce DS-530, DS-6500, DS-60000.

Precision Printhead Technology

The T-series comes equipped with the next-generation PrecisionCore printhead technology, enabling superior print speed, quality and reliability. PrecisionCore technology utilises piezo elements to mechanically eject the ink. This heatless technology prolongs printhead longevity, providing reliable long-term operation.

The PrecisionCore technology, as well as Variable Size Dot Technology, allow the ink droplets to be controlled to the finesse of 3.5 picolitres.

Nozzle Verification Technology

Print without interruptions with the advanced built-in Nozzle Verification Technology (NVT). This technology monitors nozzle health and adjusts print quality automatically without interruption, even during printing.

The piezo element (sensor) detects the residual vibration (pressure change) in the ink chamber and diagnoses the nozzle condition.

If a clogged nozzle is indicated by an irregular vibration pattern, the printer automatically adjusts the print quality.

Without adjustment

With adjustment

Anti-dust Design

Incorporating a unique anti-dust design, the T-Series printers require minimal cleaning and maintenance that are required for environments that are traditionally dusty, such as, construction sites.

Outstanding Speed & Quality

Impressive Print Speeds

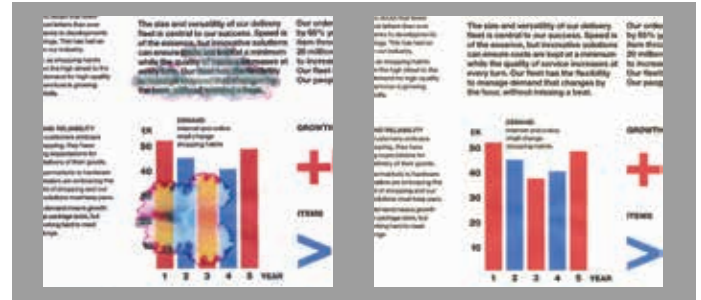

The PrecisionCore printhead technology enables remarkable print speeds that will print A1 printouts in 22 seconds* – the fastest in speed among all Epson T-series printers.

*Print speed is based on the SC-T5430.

Unsurpassable Quality

With an improved formulation that works especially well with plain paper and special media such as tracing paper, the UltraChrome XD2 delivers accurate and sharp line printing that is suitable for vector images or luster data. The all-pigment ink achieves less bleed-through and is better at withstanding the harsh weather conditions compared to dye-inks. Additionally, the T3430 and T5430 printers support borderless printing.

Dye

Pigment

Security & Workflow Management

The T-series printers support the following security standards:

- IEEE802.1X: LAN Standard
- SNMPv3: Networkdevice Management
- Encryption Standard: TLS/SSL, HTTPs, IPse

Furthermore, the printers enable a smoother workflow management for multiple printers with the use of these software:

- Epson Edge Dashboard
- EpsonNet SetupManager
- Epson Device Admin
